3. Flexbox

3.1. Flex container properties

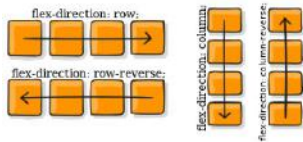

display: flex

This is the CSS property to tell the browser that the element is a flex container.

flex-direction: row | row-reverse | column | column-reverse;

This sets the primary direction of the flex items inside the flex container.

flex-wrap: nowrap | wrap | wrap-reverse;

This property specifies the behaviour of the flex items when their total size is greater than the size of the flex container's main size.

Let's say that the flex direction is row:

- flex-wrap: nowrap** will make the items stay on one line, going out of the container's boundaries
- flex-wrap: wrap** will make the items go to the line below
- flex-wrap: wrap-reverse** will make the items to to the line above

📖 Table of contents

- 1. What is HTML ?
 - 1.1. Basic structure of an HTML page
 - 1.2. HTML attributes
 - 1.3. Hyper links
 - 1.4. HTML tags you have to know
 - 1.5. Layout and elements flow
- 2. Cascading StyleSheets (CSS)
 - 2.1. CSS basics
 - 2.2. CSS rule selector
 - 2.3. CSS attributes you absolutely have to know
- 3. Flexbox
 - 3.1. Flex container properties**
 - 3.2. Flex items properties
 - 3.3. The frog exercise

T - Module 01 - Course template

Short introduction

This module describes how to create a course on Moodle from scratch with screen capture illustrations. Here are 5 main activities that need to be figured out:

1. create a category & a course
2. create a course layout
3. create an introduction video
4. create a book
5. create the forms of exercise and evaluation parts

- About this course ☑
- Course notice board ☑
- Course FAQ ☑
- Introduce yourself! ☑
- Any question about this course? ☑

Instructions: Clicking on the section name will show / hide the section.

▼ Course

▼ Course

Book ☑

▼ Practical exercises

These exercises could help you understand more about the course layout and various existing content types. Let's figure out your favorite exercise format! Practice makes perfect!

- Create category - Branching scenario ☑
- Create a new course - Course presentation ☑
- Enroll user - Drag & drop ☑
- Create course layout - Hotspots ☑
- Create header section - Drag the words ☑
- Create book - Image sequencing ☑
- Create book 2 - Interactive video ☑
- Create exercises - HSP content types ☑
- Create exercises - Flashcards ☑
- Create quiz & feedback ✗

▼ Evaluation

This section contains:

- a small quiz to test your knowledge required after the Templates course.
- a feedback to share your views on this course.

- Test ✗
- Certificate of completion ☑
- 🔒 Not available unless: The activity **Test** is marked complete
- Module feedback ☑

Please let us know your opinion about the course by completing these question!

1. CREATE MOODLE E-LEARNING CONTENT

- Interactive content

Create book 2 - Interactive video

The screenshot displays the Moodle course administration interface. On the left, a 'Course overview' panel lists various settings: 'Add a new course', 'Course default settings', 'Course request', and 'Manage courses and categories'. A 'Check' button is visible at the bottom of this panel. The main content area shows the 'Departmental Policies' page with a 'TABLE OF CONTENTS' sidebar and a video player. The video player is titled 'Create book 2 - Interactive video' and features a 'More videos' carousel with thumbnails for 'Label: sound and video', 'Activity completion: track progress', 'I found my way around', 'I can add assignments', and 'Quiz: automatic grading'. A green overlay on the video player prompts the user to 'Choose the next step' with options: 'Continue to watch the video.' and 'Jump to the summary question.' The video player also includes a 'Watch later' and 'Share' button in the top right corner.

Flashcards

The screenshot shows a Moodle flashcard activity. The title is 'Flashcards' and the instruction is 'Write the name of each HSP content type'. The progress indicator shows '2 / 15'. The main content area displays two flashcard options: 'Create text-based drag and drop tasks' and 'Create essay with instant feedback'. The 'Create text-based drag and drop tasks' option is highlighted with a green border and includes a 'drag' input field and a 'Check' button. The 'Create essay with instant feedback' option includes a 'Your answer' input field and a 'Check' button. The interface also features a 'Watch later' and 'Share' button in the top right corner.
